## Executive Summary

The Indian Coast Guard intercepted a suspicious fishing vessel off Andhra Pradesh (AP) coast near Kakinada, which was registered in another state and operated outside designated zones. The AP coastline is of security concern with harbours at Visakhapatnam, Kakinada, Machilipatnam, and Nizampatnam. There are indications of fishing boats being used for smuggling activities along the Machilipatnam-Nizampatnam stretch due to limited Coast Guard patrol coverage. Cryptocurrency payments have been made through wallet 0xAB12CD34EF56 from known smuggling networks.

## Key Findings

- Interception of suspicious fishing vessel off AP coast near Kakinada
- Indications of smuggling activities with the use of fishing boats
- Limited Coast Guard patrol coverage causing security concerns along Machilipatnam-Nizampatnam stretch

## Recommendations

- Enhance surveillance and patrolling in suspicious areas like Machilipatnam-Nizampatnam stretch
- Investigate potential coordination between fishing boats, smugglers and those involved in cryptocurrency payments
- Secure coastal communication channels to prevent unauthorized vessel movements
